the loss of at least three lives and doing immense damage to property. Several dwellings were completely demolished and others partially wrecked. Eight or 10 churches had their roofs blown off and otherwise damaged. Telegraph, telephone and electric light poles were snapped like pipestems, mixing the wires in an inextricable mass in the streets, making travel in many sections the city impossible. Fierce lightning and high wind accompanied the storm. or rather two storms, for Pittsburg and Alleghony was the meeting place of one storm from the west, which came up the Ohio valley, and another from the east, which followed the course of the Allegheny river. At 8 p. m. another storm almost as fierce as the first came up and .68 of an inch fell, making a total of 1,33. The rivers are now rising and another flood is expected.

Among the easualties reported is an accident to the camp of the Eighth Ward hunting and fishing club of Allegheny. The club was at its camp in Sugar Grove, about four miles up the Allegheny river, when the storm came up. The members say it was a gennine eyelone. The trees in the grove were broken and twisted as though they were weeds and one large syeamore, 30 feet in eircumference, was snapped off near the ground and fell upon the tent of the eampers, killing almost instantly John Figus, broke the back of George Miller, who will die, and seriously injured Thomas O'Connell, Charles Vosaick, Jacob Metz, Frank Ott and Harry Haddle.

The result of the storm in property damage has not all been gathered in, but it is known that all through Allegheny, the South Side and the East End, many houses were inroofed, signs blown down and windows broken. Along Penn toward Homewood, where many fine suburban mansions are loeated, the splendid lawns are completely destroyed and the beautiful and ornamental trees ruined. It is estimated that \$100,000 will hardly cover the loss in this locality alone.

Reports from outlying towns tell of much damage to houses and other property, but no lives lost so far as known. In Allegheny 12 people were struck by lightning. They are in the hospital and considered by the physeians to be in a critical condition.

The names are: Abner Hays, freight receiver of the Fort Wayne railroad; A. M. Bennett and three children, August Snedtz, his wife and four children. Mr. Hays was sitting in the house door when a bolt of lightening struck the building, knocking Mr. Hays meconscious. Mr. Bennett and his children were standing on their porch on St. Clair Terrace, when a flash was condueted from a trolley wire in front of the house to the porch, prostrating the entire party. The Snedtz family were eating supper when lightning struck tho residence, following the chimney flue to the dining room. About half an hour later a neighbor discovered the whole family lying on the floor in an uneonscious condition. The may recover, but it is doubtful."

In Pittsburg reports of damage to property is still coming in. On Washington street two houses, a machine shop and the Fifth U. P. chnrch were blown down and completely ruined, but fortunately no one was injured. The row of houses belonged to the Denny estate and had been condemned and the tennets had removed from them. The Centenary M. E. church, on Kirkpatrick street, had its roof and steeple earried away by the wind, the bells from the tower were thrown to the ground and broken.

The roof of the John Wesley chapel, A. M. E., was torn away and earried 200 feet. The Pittsburg high school and Holy Ghost college suffered somewhat, but are not badly damaged.

Returns from the different sections of the two eities show 25 or 30 people injured more or less by falling trees, roots, signs, etc.

COAL MINING AT CLINTON. Cenls Per Ton.

CLINTON, Ind., July 28.-Notwithstanding the serions condition of the mining interests throughout the state, there is a measure of prosperity among the mines and miners at this place. Eccause of the Grape Creek (Ills.) competition, the miners here, with a few exceptions, are acting independently, of the demands of the federation, and nre mining coal at 55 cents per ton. The miners are getting good work and making good wages. The Indiana Bituminous Mining company's No. 3 mine, which has been idle for the past three months, resumed work yesterday with a large number of men, and all save the men who were "blacklisted," as strike agitators, were put to work. It is thought before the week ends that 200 men will be at work in this mine. The blacklisted men try to make trouble, but no attention is paid to their florts. As the mines are now running, their payrolls will aggregate \$25,000

Sensational Scene Follows the Aunrebists' Altempt to Storm the Platform-British Independent Party Sides With Them in Their Efforts to Command Recagnition. An Important Meeling.

London, July 28.—The fourth International Socialist Trade congress opened in this city yesterday, 500 delegates from all parts of Europe and from the United States, Australia and the Argentine Republic being present. Among the delegates are 169 representatives of British trade nnions. Among the American delegates are Lucian Sanial of the Socialist Labor and Trade Alliance; Matthew McGuire, who represents the Socialist Labor party of New Jersey; H. The chair was occupied by Mr. Cowey, a Northumberland miner, who made a speech welcoming the foreign delegates. Upon its conclusion the delegates rose and cheered and then sang the Marseillaise, in which the audience joined.

The report of the sectional meetings was read. A large majority of the delegates voted against the admission of anarchists when the question of whether they should be received as delegates was mooted in the plenary congress The anarchists, who were present with their credentials as trade unionists, in-

sisted upon the right of speaking.

The English and German delegates warmly opposed their being allowed to air their views on any subject before the eougress, and clamored for an immediate vote on the question of their expulsion. A prolonged uproar followed, the anarchists and their supporters being apparently determined that they should be received as delegates. The chairman's bell was rung for several minutes in a vain attempt to secure order, both sides shouting at once. Finally the anarchists tried to storm the platform, and then occurred a most disgraceful scene. Their opponents railied in front of the platform and hurled the anarchists back in tisticus? encounters.

FROM FAR-OFF 'FRISCO.

Mr. Throop Browning Writes interestingly From the Pacific Slope.

We extract the following from an interesting letter from Throop Browning, cisco, Cal., to his father, Dr. A. G. Browning, of this city:

As stated in my last, had expected to sail ou line. Australia noon of 9th. Your letter of 3rd reached me two days before this and changed my plans for the present. While governed by good advice, must say have only postponed, not abandoned the move. Even before leaving Kentucky, 'twas my purpose, as you know, to some day take this trip. Since being in 'Frisco I've not only been strengthened in this resolve, but have been busily posting myself In the history of those countries in order that I might make my visit a source of real benefit. When, to my surprise, the position I had dreamed of, schemed for, was offered me. I simp'y yel ed with delight, and at once began my preparations. It isn't every time that a young man can make the voyage to Honolulu, Samoau Islands, Anstralia, Chiua and Japan, and get well paid for the privilege. When taken for pleasure only, this trip wiil costfully \$ 100. You must know that to people of the Pacific Coast a voyage to Australia or China amounts to no more than going to New York, to the average Kentuckian; it's only a difference of a few thousand miles, and this we don't count. This position will remain within my easy reach and later on I'll accept it. I think California is much like the rest of the world. only more so in some respects. To the man with

To the man of no money-well, the 'moneyless man,' in any locality, Is just what Cousin Heury Stanton has pictured him in immortal lines, and California is far short of a Paradise for such. There's a difference perhaps, and it's like this: I've heard you say that when scratching was the right thing to do, the best thing was to scratch and for all that's out. They do it here, and to better purpose, possibly, than in some places. They simply have to. And if successfully it matters little where or how the scratching is done. *

That

Tired Feeling

Makes you seem "all broken up," without life, ambition, energy or appetite. It is often the forerunner of serious illness, or the accompaniment of nervous troubles. It is a positive proof of thin, zich, red, vitalized and vigorous, it imparts life and energy to every nerve, organ and tissue of the body. The necessity of taking Hood's Sarsaparilia for that tired feeling is therefore apparent to every one, and the good it will do you is equality beyond question. Remember

COOK HUSBANDS, N. P. McCracken County, Ky.

we have the consolation to know that tobacco is doing fully as well in proportion to any other product of the soil.

The future is not favorable for lany better prices for this great staple until there Is a generat revival of all branches of trade, and, from the present outlook, that is some distance in the future. Therefore the tobacco trade can only accept the situation and do the best they can, which they are doing ai present by selling and accepting the prices. Our market fluctuates largely in prices, one sates day being satisfactory, while perhaps the next day the huyers will show earelessness and prices will decline and cause the seliers to reject, and then, with more activity, they will advance and become firm again.

The past week has been a continuation of the past month, and with outy moderate sales there appears to be no chauge in prices, only when fluctuating. There has been more active bidding for color, and some fancy hogsheads have done exceedingly well, but the general run of the mbaceo has shown no change in prices, and with the general impression that the growing crop will be a good one, it is causing the owners of the old crop to accept the sales verylliberally.

The reports from the country are not so encouraging as they were some time ago. The in-cessant rains are no doubl, doing a great deal of damage at this time, and if they continue much longer the crop will be damaged quite seriously, but we are lu hopes the weather will become more favorable and the crop will be housed in good coudition.

There has been a full quota of buyers on the market, who appear willing to purchase at the low prices, and occasionally show considerable competition in bidding. We are in hopes our market will remain firm the coming week.

BLUE GRASS LEAGUE.

Opening Games August 7th -Maysville Won Yesterday.

The Blue Grass League of Base Ball Clubs was organized at Lexington Monday afternoon with the following four cities as members: Maysville, Paris, Mt. Sterling and Lexington.

Louis H. Ramsey, of Lexington, was elected President and W. S. Williams also of Lexington, Secretary.

The following representatives were present: Manager Cox, Maysville; Manager Shinners, Paris; L. H. Ramsey, Lexington; W. S. Williams, representing club.

The schedule will be arranged at once, says the Leader, and the season will open next week and close in September, probably the third week. Each club will play about four games a week. The Leader has offered a pennant to be awarded the championship club.

Rules for the government of the league were discussed and adopted and will be published soon. One especial rule is in regard to contracts. No player can "jump" his contract with one club and play with and knows just what they will do. another in the league.

Two umpires will be appointed and they will be fair, capable and honest.

The opening games will probably be Paris at Lexington August 7 and 8, Maysville at Mt. Sterling August 7 and 8. returning at 8:30. Nice music. Cool "Off days" will probably be used for

games with Knoxville and other independent clubs.

At the close of the championship series a game will be arranged between the champions and either Louisville or Cincinnati.

The Maysvilles will not be satisfied without that pennant, and with Leever, Newton and Shepard to do the twirling it will take wonderful work to beat us out of it.

MAYSVILLE 4, LEXINGTON 3. Special to BULLETIN.

TIDAL WAVES AT CHICAGO.

Uphenyals at the Bottom of the Lake Thought to Cause Them.

CHICAGO, July 28.—A series of tidal waves along the western shore of the lake yesterday eansed the water to rise over three feet above the normal water-

The first and highest wave was at 5:30 a. m., and from that time on until 10 o'clock there was a succession of ebbs and flows that were about an hour apart. At 10 o'clock another tidal wave nearly as high as the first one, appeared.

Prof. Hough of Northwestern university said he would not attempt to explain it, unless there were some upheaval at the bottom of the lake.
